Our Graduate Training Program

Overview

- 3 Year Program at Australian Children's Chiropractic Centre, Newcastle
- Learn with Dr Jacey Pryjma and advanced care management with Well Kids
- Study Chiropaeds 2 year Diplomat and be mentored for active practice integration of content leading to higher understanding and skill
- Invest in leadership skills, mentoring programs, education and events
- Opportunities to develop your connection with the community

Program

Join the team at ACCC as a practising chiropractor and enjoy our extensive training and mentoring program curated to fast-track your learning, integrate expert teaching, and provide hands support in practice.

- **Year 1:** Focused on skill acquisition in examination skills, adjusting skills, care management and communication. Fast-track your learning by being immersed in paediatric practice.
- **Year 2:** Build your clinical judgement and confidence, watch your care management skills skyrocket, and grow higher-level knowledge and technique development. Here we focus on advanced communication, time management skills and personal development
- **Year 3:** Your final year of the program is an exciting one. Here you are enjoying the rewards of your dedication. Find flow in practice and focus on your 'ideal week'. Further upskilling with supporting complex and difficult cases. Learn to develop your professional profile and expand your reach into the community.

Your Chiropractic Career Goals

Is working with kids your passion? Are you ready to immerse yourself in an incredible paediatric practice and fast track your learning? There is no better or faster way than full practice immersion and hands-on mentoring with advanced training.

Here at ACCC we are all about supporting the community to soar to new levels of health.

At ACCC you will:

- Help children and teens to develop postural strength to carry them through life
- Support women move through pregnancy with ease and balance - preparing their body and confidence for birth
- Engage new mothers in programs to develop strength and confidence post-partum
- Work with parents to develop and grow healthy lifetime practices to support long-term wellbeing
- Connect in meaningful ways to the allied health, educator and practitioner community to grow your network

"If working with women and children is your passion and your future, then this opportunity is for you."

Meet Dr Jacey Pryjma

Chiropractor and Practice Director of Australian Children's Chiropractic Centre

Dr Jacey Pryjma is a passionate chiropractor who has dedicated her career to working with children and teens, as well as supporting women through pregnancy and families in each stage of family life.

As an active member of the industry, Jacey served the NSW Chiropractor's Association of Australia (CAA, now known as the ACA) Board from 2010 to 2012. She was part of the media team for Spinal Health week, representing the profession on national television and radio and continues to work hard for the profession when called upon.

She has been on the board of the College of Chiropractic Paediatrics, the industry-representing board for chiropractors who have a special interest in working with children.

Jacey teaches industry-recognised seminars to chiropractors about examination skills and best practice recommendations for children. She also developed software for chiropractors that is part of the Well Kids Program, focused on increasing standards of care, documentation and reporting systems based on functional change and measuring the quality of life in children.

As a mum herself, Jacey knows the importance of feeling supported and welcome and this is seen throughout the practice. Parents and children alike enjoy her friendly and approachable style of care.

"As a teacher of industry-recognised seminars on childhood development, examination skills for chiropractors and communication processes, it was important for me to develop a practice that would reflect those teachings in care management while rethinking practice design and the relationship of health & education in the family environment."

- Dr Jacey Pryjma

Welcome to the ACCC

The Australian Children's Chiropractic Centre was architecturally designed to create the perfect space for children, teens and families to feel comfortable, welcome and supported in their wellness goals.

The versatile and multi-functional centre reflects nature's ecosystems as an open-plan facility that streams with natural light, allowing parents and smaller children to integrate with their surroundings. Private rooms allow older children and teens to have a quieter space away from the energetic toddlers!

Our entire team's passion is working with young families. The centre provides chiropractic and other health modalities, workshops and events to provide support during all stages of family life.

At the ACCC, everything we do aims to:

1. Bring healthcare to the forefront of family living
2. Empower today's children to be tomorrow's health ambassadors, soaring the community to new levels.

Our vision
is to inspire,
connect and
cultivate a
community
of well-beings.

Develop Clinical and Personal Mastery

Our Advanced Training Mentor Program combines leadership development with innovation in the paediatric chiropractic care setting. Stay at the forefront of advancements in research and clinical updates while caring holistically for families.

You will develop Clinical Mastery through:

- Excellent understanding of normal stages and ages of childhood development
- Extensive understanding of neuro-development and its impact on quality of life
- Enhanced communication skills
- Exceptional examination skillset
- Neuro-developmental focus for children
- Pregnancy Care
- Adjusting Focus/protocols for every stage
- Appropriate condition management - including frameworks of the latest research, protocols and referral systems
- Family engagement and education strategies

Additionally, develop Personal Mastery through:

- Enjoy mentoring for personal growth, development and personal mastery
- Learn our holistic approach to planning career goals and achievements
- Focus on finding your perfect day/week routine in practice
- Develop your unique marketing strategies with your dedicated team to see more of the families that interest you
- Working towards unique career pathways including:
 - Future mentoring opportunities
 - Marketing and social media roles
 - Events and workshop creation

“As someone who never thought to visit a Chiropractor I can now highly recommend!

From the moment you walk in the door at ACCC you feel joy, warmth and at ease.

The whole space is inviting and the kids truly love to go and never want to leave.

One huge thing is the knowledge...he is 4 and tells me about the brain, how his body is feeling and how when he has a sore neck from falling etc he would like to go there for his adjustment.”

H.M Google Review

accc

“ I don't know how I would have gotten through the newborn stage without them. The experience always feels very personal level and you can tell that they genuinely care....

My kids love coming in here because it is such a beautiful space and everyone is just so welcoming and lovely!”

J.B, Google Review

How to apply

To apply for this program please send a short video (5min max) and cover letter about yourself with an expression of interest for this position to: jacey@childrenschiropractic.com.au

Please include:

- Information about your paediatric training
- Why you would be the perfect addition to our team
- Your personal goals as a chiropractor who works specifically with children.

Please note your video is reviewed on content, not on creativity. As simple video of you talking to the camera is all we are after.

QCCC

Hear from our team

"Joining the ACCC team will mean you join a space that nurtures the health and wellbeing of hundreds of families in Newcastle and its surrounds. You gain access to a positive reputation that's been built on honest communication and successful achievement of health goals. The well established systems and procedures at ACCC are an asset for any practitioner as they promote clinical excellence, sound communication and effective marketing. The structure of support you enter when you join the ACCC team is exceptional."

- Dr Amanda Watson (Chiropractor)

"If you want to excel in the chiropractic paediatric field and are looking to join a nurturing team that supports growth and development, ACCC is the centre for you! The team prides themselves on providing excellent service and will go above and beyond to help each other and the families of our community. Your knowledge will skyrocket and hard work will pay off through this program."

- Dr Jenna Godfrey (Chiropractor) Year 3

If your dream is to be an amazing paediatric chiropractor, being immersed in paediatric care at ACCC is the best thing you can do. The growth I've had in my skills, knowledge, clinical decision-making, competence and confidence is more than I could have imagined possible at this point in my chiropractic career. Combining formal study with everyday practical application, and ongoing mentoring has made a world of difference in my ability to live and breathe my passion of working with babies and kids.

- Dr Karina Roerick (Chiropractor) Year 2
